

# 30'' Oscillating Fan

Product Bulletin

November 2007

## Description

This easy to assemble 30'' high velocity oscillating pedestal fan sports a powerful 1/4 HP direct drive aluminum dye cast motor that produces a superior airflow. Designed with a unique spring loaded shaft that provides weight support for much easier height adjustments. Made of an all metal construction with a heavy duty finish for durability. Our dual mount design offers the option of using it as a pedestal stand or a ceiling mount. Fully adjustable from 64'' to 84'' for added versatility.
